HISTORY OF TITLE IX AND ATHLETICS

- Athletics is not mentioned in the 1972 Title IX statute
- Proposed regulations (1974) did and created a fire-storm
- Regulations passed in 1975 and athletics was given three years to comply
- Dec. 11, 1979, HEW issued the “intercollegiate Athletics Policy Interpretation”
  - Contained the “Three-Part Test” to determine Title IX compliance with student interests and abilities
Civil Rights Restoration Act restored Title IX’s application to athletics.

- **1984**: Grove City College v. Bell exempted most athletic programs from Title IX.

- **1988**: The OCR studied the efficacy of the Three-Prong Test and institutions’ compliance with it.

- **1990s**: “Clarification on Intercollegiate Athletics Policy Guidance: The Three-Part Test”

- **1996**: The OCR again examined the Three-Part Test and restated that it remained unchanged.

- **2003**: “Additional Clarification” from the OCR that weakened the Three-Part Test.

- **2005**: The OCR rescinded its 2005 guidance.

- **2010**:

Three-Part Test and the 13 program components are typically not as problematic for Intramurals and Club Sports because those programs are typically self-initiated and benefits provided by the institution are typically fewer.
EQUITY acknowledges systemic impediments with targeted fixes.

EQUALITY requires a level playing field that doesn’t yet exist.

JUSTICE eliminates systemic barriers.

AGENCY individuals know that access is their right.

The journey starts by asking those affected how they see and are impacted by the conditions, rules, and resources.

Title IX requires an institution to:

- **Provide equal opportunities** for female and male students to become intercollegiate athletes
  - Analyzed by means of a three-part test ("Prongs")
- **Provide equitable treatment of participants** in the overall women’s program as compared to the overall men’s program
  - Analyzed according to thirteen (13) different program components (The “Laundry List”)

Title IX does not require an institution to:

- Provide the same funding to the overall women’s and men’s programs
- Provide the same funding to men’s and women’s teams for the same sport
- Provide specific benefits to teams
- Offer the same number of teams for men and women
- Offer the same sports for men and women
- Provide the same benefits to men’s and women’s teams in the same sport
- Compete at a specific level

The oversight of compliance remains the responsibility of the Institution’s Title IX Coordinator (TIXC).

Compliance in athletics may be delegated to the Senior Woman Administrator (SWA = NCAA distinction) or compliance officer in athletics.

- Need for outside education on the various areas of TIX

Institutions should have a Deputy TIXC in athletics.

- Athletics Deputy TIXC should not be the Recipient’s TIXC.
THE THREE-PART TEST: ACCOMMODATION OF INTERESTS AND ABILITIES

- Proportionality
- Program Expansion
- Full Accommodation
THREE-PART TEST (1979)

Effective accommodation of interests and abilities

1. Opportunities for males and females substantially proportionate to their respective enrollments; OR

2. Where one sex has been underrepresented, a history and continuing practice of program expansion responsive to the developing interests and abilities of that sex; OR

3. Where one sex is underrepresented and cannot show a continuing practice of program expansion, whether it can be demonstrated that the interests and abilities of that sex have been fully and effectively accommodated by that present program.
COUNTING PARTICIPANTS

For purposes of Title IX compliance, a participant is defined as those athletes who:

- Regularly receive institutionally-sponsored support normally provided to athletes
- Regularly participate in organized practices or team meetings and activities during the season
- Are listed on the eligibility or squad list
- Are injured, but continue to receive financial aid on the basis of athletic ability

Participants also include those who:

- Are listed on a team's squad or eligibility list AND are on the team as of the team's first competitive event
- Join the team during the season*
- Are a walk-on
- Are a member of the JV, freshman, “B” team, etc.
- Quit or were cut after the first competitive event
- Are a Redshirt athlete
- Are a mid-year transfer eligible to participate in the spring

*Season begins on the date of a team’s first intercollegiate competitive event and concludes on the date of the final intercollegiate competitive event.

The following are **not** participants:

- Unfilled team slots or positions
- Club, intramural and recreation program participants
- Cheerleaders*
- Athletes who quit or are cut BEFORE first competitive event of the season
- Sport participants out of season (e.g., spring football)
- Scrimmage or practice squads
- Student managers,* student coaches, * student trainers*
- Students who are academically ineligible
- Mid-year transfers if no spring season

*Even if they receive scholarships

PART 1: PROPORTIONALITY

Opportunities for males and females substantially proportionate to their respective enrollments

- **Substantially proportionate** accounts for natural fluctuations in enrollment and participation rates, but institutions must adjust if shifted enrollment or participation shifts persist.

- The OCR uses a case-by-case analysis, rather than a rigid statistical requirement (e.g., within 1% of student body).

- The OCR would also consider opportunities to be substantially proportionate when the number of opportunities that would be required to achieve proportionality would not be sufficient to sustain a viable team.

PART 2: PROGRAM EXPANSION

History and continuing practice of program expansion responsive to the developing interests and abilities of the underrepresented sex

In analyzing a history of program expansion, the OCR considers:

- An institution's record of adding intercollegiate teams, or upgrading teams to intercollegiate status, for the underrepresented sex
- An institution's record of increasing the numbers of participants in intercollegiate athletics who are members of the underrepresented sex

PART 2: PROGRAM EXPANSION (CONT.)

- An institution's affirmative responses to requests by students or others for addition or elevation of sports
- An institution's current implementation of a nondiscriminatory policy or procedure for requesting the addition of sports (including the elevation of club or intramural teams) and the effective communication of the policy or procedure to students
- An institution's current implementation of a plan of program expansion that is responsive to developing interests and abilities

PART 3: FULL ACCOMMODATION

Whether it can be demonstrated that the interests and abilities of that sex have been fully and effectively accommodated by that present program

The OCR will consider whether:

- There is sufficient unmet interest to support an intercollegiate team
- There is sufficient ability to sustain an intercollegiate team
- There is a reasonable expectation of competition for the team

LEVELS OF COMPETITION

- Equivalently Advanced Competitive Opportunities
- Upgrades of Competitive Opportunities
LEVELS OF COMPETITION

The OCR assesses compliance by examining:

- Whether the competitive schedules for men's and women's teams, on a program-wide basis, afford proportionally similar numbers of male and female athletes equivalently advanced competitive opportunities

  OR

- Whether the institution can demonstrate a history and continuing practice of upgrading the competitive opportunities available to the historically disadvantaged sex as warranted by developing abilities among the athletes of that sex

ATHLETIC FINANCIAL ASSISTANCE

- Financial Assistance
- Counting Participants for Financial Assistance
FINANCIAL ASSISTANCE

- Must provide **reasonable opportunities** for financial assistance to members of each sex in proportion to the participation rate of each sex in intercollegiate athletics
  - Does **NOT** require same number of scholarships for men and women or scholarship of equal value
- Total amount awarded must be “substantially proportionate to the participation rates” of men and women in the institution’s athletic programs
- Disparities could be non-discriminatory in origin
  - E.g., in-state vs. out-of-state recruits; reasonable professional decisions
- Also applies to work-related aid programs or loans

MULTI-SPORT ATHLETES AND FINANCIAL ASSISTANCE

- There is a different standard for counting multi-sport athletes for scholarship participants than for all other forms of Title IX analyses.

- Scholarship counting
  - An athlete who participates in multiple sports is counted as only ONE scholarship.
  - Based on total program participation, not individual team analysis.
  - Typically does not matter for which team the student is counted
  - All other forms of Title IX analysis
  - An athlete who participates in multiple sports is counted as a participant for each sport.

- Whether the differences in benefits, opportunities, and treatment afforded prospective student athletes of each sex have a disproportionately limiting effect upon the recruitment of students of either sex.

The administrative and clerical support provided to an athletic program can affect the overall provision of opportunity to male and female athletes, particularly to the extent that the provided services enable coaches to perform better their coaching functions.

**Key factors:**

- Amount of administrative assistance provided to men's and women's programs
- Amount of secretarial and clerical assistance provided to men's and women's programs

The Executive Committee expects NCAA members to...operate fairly and ethically, and further to assure that student athletes are neither advantaged nor disadvantaged by special treatment and that institutions’ athletics departments must:

- Comply with campus authorities and ensure that all athletics staff, coaches, administrators and student-athletes maintain a hostile-free environment for all student athletes regardless of gender or sexual orientation

- know and follow campus protocol for reporting incidents of sexual violence

- report immediately any suspected sexual violence to appropriate campus offices for investigation and adjudication
**Educate all** student-athletes, coaches and staff about sexual violence prevention, intervention and response

**Assure compliance with all federal and applicable state regulations related to sexual violence prevention and response**

**Cooperate with but not manage, direct, control or interfere with** college or university investigations into allegations of sexual violence ensuring that investigations involving student-athletes and athletics department staff are managed in the same manner as all other students and staff on campus
