

Get to know your calling options in Webex

Call settings let you manage your devices, turn on features, and more through the desktop or mobile app.

Review your setup

1. Click your **profile picture**.
2. Go to **Settings > Calling**.
3. Adjust your settings or choose **Advanced Call Settings** for features like voicemail and other ways to handle calls.

Some settings are only available in Advanced Call Settings if they have been enabled by your administrator.

Settings that work for you

Control how you receive calls, record voicemail greetings, and set your visibility through the Webex app, every day and when you're away.

From Advanced Call Settings you can:

- Adjust your voicemail preferences
- Set up call forwarding
- Reject anonymous calls
- Block your caller ID
- Turn on call waiting
